EXPERIENCES

FRONTEND DEVELOPER INTERN — AUGUST 2025 - DECEMBER 2025

DP Solutions Sdn. Bhd.

- Developed responsive web applications using React and Next.js for desktop and mobile.
- Contributed to Property Listing, Questionnaire Builder, and AI Business Solution projects.
- Implemented responsive UI using Tailwind CSS, shadcn/ui, and Ant Design from Figma designs.
- Managed global state using Recoil and implemented i18n and PWA functionality.

PROJECTS

MYTOUR - DIPLOMA FINAL YEAR PROJECT — APRIL 2025 - JULY 2025

Team Leader

- Developed a full-stack tourism web application using Next.js and Node.js to generate personalized itineraries in Malaysia.
- Integrated Google Gemini API and Leaflet for AI-generated trip planning, interactive maps, and route visualization.
- Built a community platform for users to share, save, and explore travel plans.
- Used PostgreSQL for storing user accounts, itineraries, and shared travel plans.

AUTOMOTIVE SERVICE MANAGEMENT SYSTEM — APRIL 2026 - JUNE 2026

Team Leader

- Developed a Java service management system for appointment booking, customer management, and service operations.
- Implemented payments, feedback, technician workload tracking, and customer loyalty features.
- Integrated permission-based access control for different user roles.
- Applied OOP principles throughout the application.

EXTRA CO-CURRICULAR ACTIVITIES

UM HACKATHON 2026

- Built an AI-powered business solution with multiple specialized AI agents to support different business needs.
- Integrated Z.AI GLM, Google Gemini, and Anthropic Claude to power different AI agents.

UM TECHNOTHON 2026

- Proposed "Watt's Brewing," a Rail Energy Regeneration Network (RERN) concept for capturing and redistributing energy within MRT systems.
- Created a dashboard to visualize energy generation, recovery, and system performance statistics from braking, vibrations, and airflow.

CERTIFICATES

RED HAT SYSTEM ADMINISTRATION I (RH124 - RHA) - VER. 10
RED HAT SYSTEM ADMINISTRATION II (RH134 - RHA) - VER. 10
